

Defensive Driving for Light Vehicles (LV) (2 Days)

Min attendees: 8 participants

Max Attendees: 15 participants

This course is aimed at Company employees, from senior management through to pool drivers who drive all types of light vehicles, be it company or personal and frequent / non frequent drivers. This course also enlightens those who have personal chauffeur's as it shall make one aware of what is expected from your chauffeur and be able to identify unnecessary high risk driving.

Upon completion of the training attendees will understand the meaning and importance of Defensive Driving, and the key factors in "arriving alive" at your final destination. This course is high impact and always gets the full attention of attendees, through "local" real life examples used during the training sessions. This course is an eye opener and changes one's perspective and attitude towards the one thing many take for granted, DRIVING!.

Block Syllabus

DAY 1

AM

DAY 2

Signing on and Introductions
